### REMARKS

Applicants gratefully acknowledge the telephone call with Examiner Turner and Examiner Kunz. The telephone call imposed a restriction requirement and requested oral election of one of the two groups of claims identified during the telephone call. The first group encompasses claims directed to peptides from the region containing amino acids 56-70 (Group I) and the second group encompasses claims directed to peptides from the region containing amino acids 448-462 (Group II). Group I includes peptides having the Sequence ID Nos: 1-5, 18-19 and 24. These peptides are directed to a single peptide, SEQ ID NO:1, and single point mutants thereof. Group II includes peptides having the Sequence ID Nos: 6-14 and 37-38. These peptides are directed to a single peptide, SEQ ID NO:6, and mutants thereof.

Applicants hereby elect Group I. The claims have been amended and new claim added so as to be directed to subject matter related to Group I peptides. No new matter has been added, nor do the amended claims add any new issues of patentability.

Applicants respectfully request favorable consideration of the present application and claim. Early and favorable action by the Examiner is earnestly solicited.

No additional fee is believed to be necessary.
